

My name is Gregg Brauneisen and I am a resident of Danbury. This Email is to express my opposition to tolls on Connecticut's borders. The proposed tolls would have a far reaching detrimental effect on Connecticut's economy and have an extremely negative impact on businesses that rely at least in part to patronage from consumers from our neighboring states.

House Bill 6818 should be defeated by any means necessary in the best interest of the residents of the State of Connecticut and the state's economic future.
